DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-11, drawn to an apparatus.

Group II, claim(s) 12-15, drawn to a method.

Group III, claim(s) 16-18, drawn to a sleeve.

2. The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Groups I and II do not make a contribution over the prior art and thus do not contain any corresponding special technical features. Evidence of lack of unity can be found in the following prior art: Roberts et al. (US 6231711). The only technical feature shared between Group III and Groups I and II is a sleeve. Sleeves are known in the art as evidenced by Roberts and thus there is no special technical feature common among the above identified Groups.
